---------------------	------

Appointments:

Your appointment time has been reserved for you. If you cannot make this appointment, please inform us as soon as possible so that we may give this time to another patient. FAILURE TO PROVIDE US WITH 24 HOURS NOTICE OF APPOINTMENT CANCELLATION WILL RESULT IN A CHARGE TO YOUR ACCOUNT.

Your first visit will be scheduled for 90 minutes. The charge is \$310.00**. During this time your doctor will talk with you in depth about your health concerns, pertinent past medical history, etc. Medical records of previous care by other physicians may be requested at this time. Your doctor may also discuss and arrange for laboratory testing to be done before your next visit. Not all lab tests require fasting. Please remember, there is no need to fast unless specifically told to do so.

The second appointment will also cost \$310.00**. This appointment is typically 2 – 3 weeks later and includes a comprehensive physical examination, review of laboratory results and an individual treatment plan designed to start you on the road to better health. If you have a health problem of an acute nature, we will address that problem while keeping our primary focus on uncovering and resolving the underlying cause. The charges for the two initial visits do not include any dispensary items that may be prescribed for you.

**Fees, Insurance and Accounts Receivable:

Subsequent visits are scheduled as brief, routine or extended and are billed at \$125, \$170 and \$230. We expect payment at the time of visit unless prior arrangements have been made. Please note that Yellowstone Naturopathic Clinic accepts VISA, Discover, MasterCard and American Express. If you have insurance coverage, we will provide you with a form that includes all the appropriate procedure and diagnostic codes your insurance company will need to process your claim. Unfortunately, Medicare and Medicaid do not cover naturopathic care. We are NOT in-network providers with any insurance company, so there is no guarantee that your insurance plan will cover these charges. Numerous health insurance company to verify if these services will be covered under your plan.

Phone Consultations and Questions:

Please feel free to discuss with us any questions you may have. During all phases of your care, it is important that you fully understand your treatment program. If you have any questions please address them to the Yellowstone Naturopathic Clinic staff. The staff will relay your questions promptly to the appropriate doctor. The doctors maintain full schedules and may not be able to answer your questions directly or immediately. Either the doctor or a staff member will get back to you as soon as possible. Should you have a number of questions regarding your treatment or progress, we suggest that you make an appointment so that we may properly meet your needs. Doctor's telephone consultations that extend beyond 5 minutes will be billed to your account. Please NOTE THAT TELEPHONE CONSULTATIONS ARE NOT USUALLY COVERED BY MOST INSURANCE COMPANIES.

Emergencies:

One of our doctors is on-call 24 hours a day. Calls to the Clinic at 259-5096, outside regular business hours, are automatically transferred to our answering service. The service will then contact the doctor to return your call. For medical emergencies, please call 911.

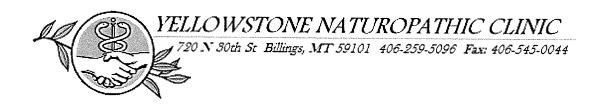

Acknowledgements:

We hope that you will find your visit with us pleasant as well as beneficial. Our goal is to help you in building better health.

Signing this form acknowledges that you understand and accept the policies of the Yellowstone Naturopathic Clinic.

All fees subject to change

Signed	Data	
	Date:	

The term 'health care provider(s)' in this form means Yellowstone Naturopathic Clinic, Oasis Health Spa, their physicians, employees and members of the medical staff who provide care to patients.

CONSENT TO TREAT

I give permission to all health care providers involved in my care to administer such examination, treatment, testing and procedures as they deem necessary in the course of my care.

RELEASE OF INFORMATION

I understand that as part of my health care, health care providers create and maintain health records that may include my health history, symptoms, examination and test results, diagnoses, treatment and any plan for care including future treatment. I understand that this information serves as a basis for planning my treatment and care and is a tool for routine health care operations including assessing quality and reviewing competency of our staff and/or other health care providers.

FINANCIAL RESPONSIBILITY

I agree to pay all charges for my health care treatment. If charges to my account are not paid after reasonable notice, the account shall be deemed delinquent. In the event that I default on payment of my account, I agree to be responsible for collection fees and interest due on amounts in default. If the debt is assigned to a third party for collection, I agree to be responsible for collection fees and interest due on amounts in default.

NOTICE OF PRIVACY PRACTICES ACKNOWLEDGEMENT

The Department of Health and Human Services has established a "Privacy Rule" to help insure that personal health care information is protected for privacy. The Privacy Rule was also created in order to provide a standard for certain health care providers to obtain their patient's consent for use and disclosure of health information about the patient to carry out treatment, payment or health care operations.

As our patient we want you to know that we respect the privacy of your personal medical records and will do all we can to secure and protect that privacy. When it is appropriate and necessary we provide the minimum necessary information to only those we feel are in need of your health care information and information about treatment, payment or health care operations in order to provide health care that is in your best interest.

We also want you to know that we support your full access to your personal records. We may have indirect treatment relationships with you (such as laboratories that only interact with physicians and not patients), and may have to disclose personal health information for purpose of treatment, payment or health care operations. These entities are most often not required to obtain patient consent.

Patient Compliance Assurance Notification

To our valued families and patients:

The misuse of Personal Health Information (PHI) has been identified as a national problem causing patients inconvenience, aggravation and money. We want you to know that all of our employees continually undergo training so that they may understand and comply with government rules and regulations regarding the Health Insurance Portability and Accountability Act (HIPAA) with particular emphasis on the "Privacy Rule". We strive to achieve the very highest standards of ethics and integrity in performing services for our patients. It is our policy to properly determine appropriate use of PHI in accordance with the governmental rules, laws and regulations. We want to insure that our practice never contributes in any way to the growing problem of improper disclosure of PHI. As part of this plan, we have implemented a Compliance Program that we believe will help us prevent any inappropriate use of PHI. We also know that we are not perfect! Because of this fact our policy is to listen to our employees and our patients without any thought of penalization if they feel that an event in any way compromises our policy of integrity. More so, we welcome your input regarding any service problem so that we may remedy the situation promptly. Thank you, for being one of our highly valued patients!
